

Question #1

Expense Pie Chart

Create a text file that contains your expenses for last month in the following categories:

- Rent
- Gas
- Food
- Clothing
- Car payment
- Misc

Write a Python program that reads the data from the file and uses `matplotlib` to plot a pie chart showing how you spend your money.

Question #2

Using matplotlib, write a Python program that reads a given text file called `1994_Weekly_Gas_Averages.txt` and then plots the data as either a line graph or a bar chart. Be sure to display meaningful labels along the X and the Y axes.
