# HTML5 SKELETON PAGE STRUCTURE

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
  <head>
```

```
    <meta charset="utf-8">
```

```
    <title>Title Here</title>
```

```
  </head>
```

```
  <body>
```

```
  </body>
```

```
</html>
```

# DO NOT USE `<br>` TAGS. EVER!

- They lock in style and prevent CSS from doing its job
- They are only ever used incorrectly by students.
- Even if you try, you won't use them correctly.

# WHAT ELSE DO YOU REMEMBER?

# LET'S TAKE A LOOK AT MDN!!!

- This is also a [link](#)
